Details of Incident: Transmission fluid is being dumped into the Sanitary sewer As stated by Mrs. Anonymous.

Action needed: Karen Chandler & I Checked this Complaint out on 12-19-89. We talked to Denny Mincks at Ace Discount. He stated that they put All their transmission fluid in barrels and give it to someone who burns it. They generate About 20-25 gallons per week. They give oil to oil burner once A month. They said they do not dump it down they sewer. The floor of the garage was completely covered with A thin layer of oil. We Asked if they had A Haz. Waste Generators No. but this man we were talking to was not the manager & he did not know. We told him it was Against City Ordinance to dump oil into the sanitary sewer.
I referred the matter to Mr. Chuck Kroeger, MDNR.
