DEPARTMENT

Re: Gasoline spill at Tire Town,
Glenstone and Commercial

This office was notified by the Fire Department of a gasoline spill at the above location about 1:45 p.m. on 6/22/77. Stephen Short and I responded to the call and found a fire truck leaving the scene. We were informed by personnel there that a jack had fallen on a gas tank and the vehicle was pulled onto a gravel lot in back of the building where approximately three gallons of gasoline were spilled. Fire fighters wetted it down and no other action was deemed necessary.
