SVC2009-02156	05/05/2009	CLO	303 E BERKELEY ST	STREETS
City owned ditch runs at the back of these properties. Owner said he just bought this property and neighbors told him the ditch used to be maintained by the city, but they no longer take care of it. He said the ditch is clogged with debris and it is causing flooding. He would like the ditch cleaned out again.

SVC2009-02378	05/11/2009	CLO	2455 S KINGS AVE	TRAFFIC
Resident on South Kings reports that it is a half-street. There will never be private developer to finish the other half of the street since it was donated to the public. Now that the city owns the fields (to the east) and it is more heavily trafficked by soccer teams from the YMCA, MSU, etc. it is very crowded. Can the street be widened to accommodate the larger volume of traffic?

<p>The following e-mail was sent Councilmembers and to Mediacom: On April 18 of this year we sent a payment of \$65.11 to Mediacom in payment for cable TV services. Our most recent bill indicates that payment was not received. I do not believe we have ever been delinquent in paying our Mediacom bill, and our good track record in this regard warrants a Mediacom attempt to find out what has happened. We would like to talk to a representative to try to resolve this billing/payment issue. However, repeated attempts to call three different Mediacom telephone numbers were unsuccessful in contacting a real person. We simply receive a recorded response that Mediacom's phones are very busy. The response to our previous attempt to contact Mediacom by e-mail resulted in the reply below which simply repeats the amount that Mediacom says we owe. We have been a Mediacom customer for many years but are becoming very frustrated with the lack of response to this inquiry.</p> <p>I am forwarding this e-mail to the Springfield City Council to make them aware of the shoddy manner in which Mediacom services their accounts. I suspect they have received numerous complaints about the responsiveness of Mediacom and I hope that these complaints will result in a more reasonable level of service to the customer.</p> <p>Bob Thurman</p>

Caller reports this City owned property needs some maintenance. Broken window in the house, garbage all over the lawn and there is standing water in the front yard with mosquitoes. Caller is concerned that the new Bass Pro construction will make this area even more prone to flooding.				
SVC2009-04823	08/03/2009	CLO	1112 E WASHITA ST	SIGNS,TRAFFIC
A "No Parking" sign placed between 1112 and 1106 E. Washita St. was knocked down during he ice storm of '07 and has never been replaced. Recently, our neighborhood has been required to put up curbside mailboxes on our very narrow street, and parking has become an issue. We would like to request that the city replace the "No Parking" sign that was previously there. Thank you. I would like to remain an anonymous complantee. Thank you again.				
SVC2009-03283	06/02/2009	CLO	211 W WAYLAND ST	BUSINESS LICENSING
Caller said a company by the name of Home ID, LLC, left an orange card with Public Service at the top. There was information about painting address numbers on the curb. The text on the card made it sound like the City was endorsing them. Their telephone number is 417-841-7677. Are they licensed to do business in Springfield?
