I just need to know whom I can contact about sidewalks ...several of us walk along the 800 block of Scenic street and there is no sidewalks for us and its very dangerous for us as walkers to use this street because there is no shoulder for us and of course we wouldn't have to walk on the shoulder if there was a sidewalk...the city bus comes down this street and they have sidewalks farther down but not were we need them...please let me know where I can get more info on this. thank you for your time and hope to get something done about this great danger for use as walkers..

Received a report by e-mail: I went to the residence to see if I could help clear out fence rows due to the Misquote problem. There was no answer at the residence. Next time I drove by the residence to get an address number and part of the numbers of the address out front were removed. and I was cussed and yelled at by some crazed man staying at the house. Now all the address Numbers are removed.. Most neighbors believe this address is a meth lab. Please check a possible meth lab at this address.

Received the following e-mail:
 Ma'am
 I'm Not really one to complain about others.
 But When The problem has gotten so bad I can't go out in my own back yard in the evening because of Misquotes, Snakes, and the possibility of being attacked by rabid Skunks I find it time to do something about this problem.
 The Problem started with the Ice storm 3 years ago,where downed Limbs were never taken to the curb and piled up out back till weeds and vines have grown up over the 2 brush piles. The fence rows here are about so overgrown you cant even see a chain link fence.
 This yard I am talking about has Not Mowed their back yard yet this YEAR. Growing up over the 2 brush piles practically covering them.
 I went to the residence to see if I could help clear out fence rows due to the Misquote problem. There was no answer at the residence.
 Next time I drove by the residence to get an address Number and part of the numbers of the address out front were removed. and I was cussed and yelled at by some crazed man staying at the house. Now all the address Numbers are removed.. Most neighbors believe this address is a meth lab.
 So without knowing the address of the property the best I could do is describe the address.
 The Property is located on S Scenic Street I believe maybe 858 S Scenic. ? The property is located 2nd building north of Lombard on the East Side of the Street. it is a little Rock house next door to the ca lot there.
 My Back Yard Joins this property. If An Inspector wants they can come by and look at the back yard or the problem residence and other fence rows. Bring Misquote repellent.
 Or If it will help get something done I will film the area and bring it to you to see. These brush piles and overgrown vines with unmowed yard has got to go.
 Thank You in advance for any help with this matter.
