CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF FILE

DATE November 30, 1984

DEPARTMENT

On Wednesday, November 28, 1984, this office received a complaint from the Liquor Barrel that Midas Muffler Shop, at 1818 St. Louis, had been "cleaning parts" on their lot, causing oil to run down the lot. Customers parking on Midas' lot were tracking oil into the Liquor Barrel. Gene Pabst and I observed a puddle of oil on Midas' lot. We talked to Wayne Gregory of Midas, about the oil. He said that they were going to put Oil Dry on the spill, but hadn't had time to do it. He said that he knew the Liquor Barrel had complained about it, and that the Liquor Barrel's customers were parking on Midas' lot. We told Mr. Gregory that if the oil left his lot it would be a violation of City, State, and Federal Water Pollution Control Laws. This office will monitor this area closely in the future.

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF FILE DATE 3-24-86

DEPARTMENT

On Friday, March 21, 1986, this office received a call from street maintenance about an oily substance in the street at the Midas Muffler Shop at 1818 St. Louis. The oil had been spilled on the parking lot and some of it had run down the street next to the curb. I talked to John Kisling about the oil. He said that the day before, a customer had spilled a 55 gallon barrel of oil out of the back of his truck. The customer told him that the barrel contained half water and half oil. I advised Mr. Kisling to report the spill to the USEPA and the MDNR. I also advised him to put "Oil Dry" on the oil.

cc: Mr. Robert R. Schaefer, P.E., Superintendent of Sanitary Services
Mr. Henry Cole, P.E., Sanitary Engineer
Mr. Chuck Kroeger, MDNR
