Details of Incident: Judy Meyer stated that water was running down the Street from Queen City Poultry. She thought Queen City was washing something out of building.

Action needed: We went to Queen City Poultry at Approx. 11:15 A.M. 6-16-93. We talked to Mr. Bobby James, Service Plus, and he stated that he was installing new Air Conditioner for Queen City, because the old unit was not big enough. They had placed a hose with a sprinkler on it and was spraying water into the Air Conditioner coils to help

1338. N. Stewart

Investigation Results

the old unit until the new one is completely install by the first of the week. If he has problems it might be the end of next week before the work is completed. He stated that as soon as the new unit is on line, the water will be turned off. We let the Mgr. of Queen City Poultry know that we were there.
