Details of Incident: The street department reported the oil in the ditch at Vista and Austin. Bob and Steve weren't in the office so I checked the complaint. There was quite a lot of petroleum product in the ditch at that location. It had apparently been dumped there because it hadn't run off from anywhere. There might have been 20-50 gallons of product.

Action needed: I called Judy Dill and reported the spill to her. She said there wasn't much DNR could do because there was no apparent source. Denny Cole said to call it over to the Street department and they could clean it up with sawdust. I told Kyle what Denny had said
