

IDEA Commons Design Charrette

The City of Springfield is in the process of adopting a plan for the IDEA Commons. One of the recommendations in the Plan is to adopt a form-based code zoning district for the area. Form-based code zoning districts encourage mixed-use development and include a strong design element to create an urban setting that accommodates mixed uses. An important step in preparing the form-based code district is to get input from the public on the design components that will comprise the code for the IDEA Commons. As an active and vital member of our community, we would like to invite you and your organization to participate in two sessions that we will be hosting. The first session will be an introduction to the proposed district, its components, and the IDEA Commons. At the second session, a week later, the recommendations for the design components for IDEA Commons will be presented.

We hope that you will be able to participate in these meetings and provide your input that will influence the future direction of IDEA Commons.

Introductory Session
Tuesday, August 31st
6:30pm—8:30pm
Butler Rosenbury & Partners
319 N Main 3rd Floor Community Room

Concluding Session
Thursday, September 9th
6:30pm—8:30pm
Butler Rosenbury & Partners
319 N Main 3rd Floor Community Room
