SVC2009-04170	07/06/2009	CLO	3204 W GRAND ST	STREETS
There are two potholes in the center of Grand St, just west of S Overhill Avenue. They have been there over a month, and cause cars to have to swerve to avoid hitting them.				
SVC2009-00794	02/25/2009	CLO	3326 W GRAND ST	DRAINAGE, TRAFFIC
Police asked us to put in a request for some signage and/or a barricade being placed near Grand and West Bypass. Just east of that location, right after you go over a small bridge, is a make-shift access road on the south side of Grand. This is apparently a great off-roading spot and they had to assist 2 guys who had both gotten their trucks stuck in the mud. They were MSU students and they said this is a well known spot for off-roading and it's advertised as such on campus.				
They believe this area is city right-of-way property used to monitor the drainage system in that area and a sign and/or barricade posted in that area advising no trespassing would be a deterrent to future off-roading endeavors. The guys helped yesterday did not know the property belonged to the city and both said if they had seen a no trespassing sign, then they would not have entered.

Letter to Parks Board and Council: To all concerned: We had a softball game at Ewing field last night and my I say what a safety hazard you have out there on the fields with holes , hills and huge water hazards in the playing areas Glass on the fields also. The youth teams playing at Ewing should not even be around these fields they are such a safety hazard to them . Springfield Parks should be ashamed of this facility!
