Lots of trash and garbage piled up on the back porch of this property. There is a skunk that Animal Control has tried to catch and caller believes the skunk is coming around because of the garbage on the porch. They have turned the house numbers around so they are not visible, but it is the second house east of Albertha on the north side.

Complainant said his garage flooded last night. A ditch runs beside his house. After the street was built up a couple of years ago, he has had flooding. Water comes from High Street, Fulbright and he said from Greene County. The culvert is not big enough to handle all the water that comes through the ditch - there is too much run off. He doesn't want someone to just come look at it, he wants it fixed.

South of my property, a few houses north of Pacific and N. Hillcrest on the righthand side, the drainage ditch is obstructed with debris which causes the storm water to back up onto several properties north of the corner of Pacific and N. Hillcrest. This has been a continuing problem for the last several years.The main exchange also has a problem with debris collecting, my husband just pulled what he could out of it, which was a pipe with a large piece of styrofoam around it that was stuck in the whistle.The water backs up all the way to 1808 N. Hillcrest and is rising to the level of completely flooding the front yard of that property and very possibly entering the dwelling.I have reported this pretty much every year for the last 4 years and get no productive result. Something needs to be done by someone other than my husband who has suffered 5 strokes and was out here last year clearing debris while sitting on his walker.I would appreciate some genuine interest in this on going problem. Thank You
