<p>An anonymous letter was sent to City Council reporting several problems for the past 4 to 5 months. The stated that neither adult holds down a job and there is substantial traffic in and out, the male is in and out constantly. This house is next to a school. Writer said they could hear a baby crying constantly and the female is all bruised and they hear her screaming and begging for him to stop. Writer said they have called police and crime stoppers, but the activity continues. They said they had taken the time to follow the male and found that he transfers his drugs in a McDonald's bag. They said he is on case net for drug charges (possession, but nothing current for dealing drugs next to a school. Writer has contacted the landlord, who doesn't care. They said they would like someone to take notice of this problem and do something for the sake of the school and children in the area.</p> <p>The letter was sent to City Council, KY3, KSPR, KOLR, Police, Daniel Newberry (landlord), Springfield News Leader, Bowerman School and News talk radio.</p> <p>Signed, Concerned neighbor in the 2100 block N. Douglas.</p>

Shrub or bush blocks sight of oncoming traffic at Franklin & Turner.				
SVC2009-04486	07/16/2009	CLO	2300 N FRANKLIN AVE	BRUSH
Not sure what the address is, caller was confused on directions. She said there is brush piled on the parkway that blocks sight of oncoming traffic. She said it is in the 2300 block of North Franklin, but then said it is on the right when you are traveling east. It should be one of the corners of Turner and Franklin. Not sure if owners piled it there or if the city cut the trees and left them piled on the right of way. Please forward to streets if it appears it is the city's responsibility.				
SVC2009-04265	07/09/2009	CLO	2330 N FRANKLIN AVE	BRUSH
The owner of 2326 N Franklin contacted Police. He said the man that at 2330 N Franklin, one house north, has been placing items against the fence causing the fence to sag. Some of the items being placed against the fence are large tree limbs and debris. Complainant has been having problems for several years. He put up the chain link fence along the north side of his property so some of the people staying next door (at 2330) wouldn't drive through his yard.

The occupants of the above address are currently storing a couch, obviously intended and manufactured for indoor use only, on the front porch of their rental property. I believe this to be a nuisance, subject to removal based on the below facts. Per Bill No. 2003-137, Ordinance 5276, indoor furniture placed outside "provides a place for harboring rodents and snakes and is subject to mildew and mold..." While the property in question is outside of the Phelps Groves area (which GO 5276 specifically deals with), those facts are no less true at this property. Part 2 of the City Charter, Chapter 74, Art VII, Sec. 74-382, (15) states: "Any condition providing shelter, food or protection for rodents, thus favoring rodent multiplication and continued existence" is a nuisance and is subject to abatement or removal.

<p>Letter addressed to Council:                      From: Mike &amp; Sabrina Frizzell [mailto:thefrizzells@gmail.com]                      Sent: Wednesday, May 06, 2009 9:11 AM                      To: Council                      Subject: please help our family</p> <p>To whom it may concern,                      We live on Lyon street in Springfield. We are located at the lowest point in the street. Every time it rains heavy for a while, like on Friday night, the water floods the street and eventually surrounds our home. The inlet drain in the street also pours water out at the side of our house where there is another drain. So between the two drains water comes up to our house and surrounds it. We have spoken to the city many times and they say there is nothing that can be done since the water has not made it indoors yet and because the project would cost too much.. We cannot wait for the water to come inside because we are not considered to be in a flood plane and so we can't get flood insurance, so if water does get inside we are in big trouble. I fear for my three small children that the water that has gotten under the house during these times is causing mold. Because of the water, we also have many different bugs to deal with and lots of mosquitoes. The water is not only the water from our street but is for a fact water also from High street draining out on the side of our house and I believe there are many other streets as well that drain into it. The water sits in the drain sometimes up to a week after a rain, we worry about it being contaminated. We have owned the house for two years now and would never have bought it if this was known. But now we are trapped and feel that we will never be able to get out of here. Please help us, I am tired of dreading every time I hear we will be receiving flooding rains and tired of those restless nights and worrying for my children's safety. I just want out of here. We have many pictures and video to prove this story also we were on the Saturday night and Monday night news. The link is</p> <p><a href="http://www.kspr.com/news/local/44235917">http://www.kspr.com/news/local/44235917</a>.</p>

Earlier this year Springfield utilities replaced part of the water shutoff or valves in front of my 1023 W Thoman house. It entailed quite a bit of backhoe and digging. My yard has now sunk in on both sides of the sidewalk. Would someone return and fill in dirt and grass in these areas? Thanks.

Several months ago my water main was dug up by the city, the surrounding area is now sunken down and a danger to mow. The water main pipe sticks up in the yard, could someone please come and patch this area again both in front of the sidewalk and in the yard area nearby. This is the second time I've asked for this service. Please contact me if your department is not the one I need to report to. Linda Barnett 833-0945
