## East West Arterial Mapping

Future East West Arterial extending from US Highway 65 and Riverbluff Boulevard to Kissick Avenue

**Applicant:** City of Springfield

Mr. Hosmer stated that this is a request to approve the East West Arterial Mapping from U.S. Highway 65 and Riverbluff Boulevard to Kissick Avenue (Farm Road 169). The City Charter (section 11.11) gives the Planning and Zoning Commission the ability to make surveys for the exact location of new streets that have been previously included in the Major Thoroughfare Plan. The general location of the East-West Arterial was identified as a future primary arterial in the City of Springfield-Greene County Comprehensive Plan Transportation Plan Element which was adopted on June 11, 2001. The City Planning and Zoning Commission approved the preparation of preliminary designs for the alignment of the East West Arterial at their meeting on June 4, 2015. Planning and Zoning Commission approved the East West Arterial Mapping on June 9, 2016. On July 11, 2016, City Council adopted East West Arterial for a period of 5 years. This will expire on July 11, 2021. If approved, the East West Arterial will be active for an additional 5 years which will expire April 19, 2026. The timing of the street will be limited to 5 years. The adoption of a mapped street shall not, in and of itself, constitute or be deemed to constitute the opening or establishment of any street or the taking or acceptance of any land for street purposes. The City Council may provide by general ordinance that no permit shall be issued for any buildings or structures or any part thereof on any land located between the mapped lines of a street as shown on the official map. The mapped alignment is only for property within the City Limits of Springfield. Staff recommends approval.

Mr. Bill Knuckles asked about the letters sent out to the property owners and if the alignment has moved.

Mr. Hosmer noted that the East West Arterial alignment was tweaked in 2015 when a survey was completed and that the first 2001 map was general and not detailed and was closer to Granite Springs subdivision. He also noted that the East West Arterial will be developer driven.

Ms. Smith noted that the City had done litigation with the developer of Granite Springs regarding the East West Arterial and the settlement was that more survey work would be done and with appropriate alignment.

Mr. Doennig opened the public hearing.

No speakers.

Mr. Doennig closed the public hearing.

Mr. King Coltrin questioned about the property owners and about further plans, do the current property owners just hang in there.
