

City of Springfield Citizen's Guide to

RECYCLING & DONATION LOCATIONS

Reduce, Reuse, Recycle—common terms, but what goes where? The purpose of this guide is to help find the resources needed to turn your used items into material that can potentially be reused, repurposed, or recycled! While we strive to provide the most current, up-to-date information, markets are constantly changing. Always call prior to making the trip to one of the listed businesses or organizations. Rapidly adjusting recycling market conditions can create shifts in material needs and acceptance. Plus, it is always good to verify and discover any unlisted specifications, requirements or fees regarding materials and items.

We strive to keep information current, but rapid changes in markets and information make that challenging. As a result, this will be the final PRINT version of this information. However, the Waste Wizard database will continue to be available and is kept up-to-date with the most current recycling and donation information.

From now on, the most up-to-date information will be available on the Waste Wizard, our searchable recycling and donation database at springfieldmo.gov/WasteWizard. We will do our best to either help locate a proper outlet for an item, or explain why certain items do not have a recycle/repurpose option. **You can go online and view our Waste Wizard at springfieldmo.gov/WasteWizard.**

GLASS CONTAINERS

Any color of containers, jars and bottles are accepted. Remove lids, rings and rinse.

City of Springfield Recycling Centers
Lone Pine, Franklin & YRC 864-1904

PLASTIC #1, 2 & 5, No Black Plastic
Collected by many curbside haulers and at the following locations. #1, 2 & 5 plastics should always be rinsed and free of food or other debris

PAPER This is one of the most common and easiest recyclable items, yet it makes up the majority of what is disposed of in the landfill. Books, newspaper, magazines, cereal boxes, toilet paper tubes, junk mail, and file folders are all common paper items that can be recycled. Do not recycle paper with foil, glitter, plastic or wax lining and metal clips or bindings.

City of Springfield Recycling Centers
Lone Pine, Franklin & YRC 864-1904

AAA Certified Computer Recycling Center
Pickup service available. Fees may apply.

Our searchable recycling database!

THE SYSTEM & YOU ISWMS IS MORE THAN A BUNCH OF LETTERS.

The City of Springfield Department of Environmental Services Solid Waste Division integrates various programs and services to help manage and reduce Springfield's waste stream. Approved by voters in 1991, Springfield's Integrated Solid Waste Management System includes the Springfield Noble Hill Sanitary Landfill, three recycling drop-off sites, a Yardwaste Recycling Center, Household Chemical Collection Center and education and market development programs. Curbside collection of trash and recyclables is provided by private, independent trash hauling companies. This environmentally sound and economically feasible system represents a long-term solution to preserve the natural resources of the region for present and future generations. The Integrated Solid Waste Management System is funded primarily by revenue generated from disposal or "tipping" fees at the Sanitary Landfill. The sale of compost and mulch products, grants, honor system fees and donations also contribute to funding the System.
