

You are invited to a two-part dedication and ribbon-cutting for

The LINK Crossings at Sunset Street and Chestnut Expressway including the HAWK Signal

3- 4:30 p.m., Friday, May 8

Please join us at the High Intensity Activated Crosswalk (HAWK) signal located on Sunset Street near the intersection with Kimbrough Avenue. A team of bicyclists will ride through the ribbon to “cut” it, then they’ll ride through Springfield on The Link to “cut” the ribbon at the OTC connection under the Chestnut Expressway viaduct around 4 p.m.

HAWK Signal Parking: Parking is available on City Utilities property accessible via a driveway off Sunset, just east of the signal.

OTC Parking: Access the Chestnut viaduct from Central Street, turn south on Clay Street at OTC’s Center for Workforce Development. Drive straight south toward the viaduct.

Cold drinks will be provided after the bicyclists cut the final ribbon.
