Convoy of Hope has teamed up with the City of Springfield to host a Community Event on May 7 as part of the City's plan to address the local issue of poverty. The event will provide guests with free groceries, haircuts, family portraits, job and health services, and much more. Thousands are expected to attend.

Please join City Manager Greg Burris and Convoy of Hope Signature Events Director Steve Pulis for an update on the event and to learn about media opportunities and resources available to you.

Through this collaborative effort, we can do together what none of us could do alone.
