Springfield Fire Department

Where Fire fits into the Development Review Process:

Springfield Fire Department

Our part of the Development Review Process:

- Two fire marshals, Ben Basham and Mark Epps review project plans for fire department access, hydrant location and spacing, required fire flow calculations, available hydrant flow, fire department connection locations, and occupancy loads.

Springfield Fire Department

Our part of the Development Review Process:

- Plans review is only one of multiple job functions of the fire marshals.
 - Commissioned Law Enforcement duties
 - Fire Investigators
 - Bomb Squad Technicians
 - Business Inspectors
 - Public Educators
 - Youth Fire Intervention Specialists
 - Permit Inspectors for tents, fireworks, blasting, bonfires, and off gassing

Springfield Fire Department

Our part of the Development Review Process:

- It is important for Fire to review projects because...
 - Of the life span of buildings
 - The use of the buildings change over time
 - Nightclubs
 - Loft apartments
