# Missouri Job Center Request for Application

The Ozark Region Workforce Development Board in Springfield, Missouri will receive applications for the development of incumbent worker skills training projects for the Ozark Region. The seven county area served by the Missouri Job Center, Ozark Region includes Christian, Dallas, Greene, Polk, Stone, Taney and Webster Counties.

## **Background Information**

The Workforce Innovation and Opportunity Act (WIOA) has provided that up to 20% of WIOA Adult and Dislocated WIOA funding may be used to train existing employees (i.e. Incumbent Workers) without the required eligibility criteria set forth by each program. Activities are outlined in WIOA Section 134 et. AL. [29 U.S.C. 3174]

## **Eligible Applicants**

Businesses that need to up-skill their workforce to retain their employees or to avert a layoff.

## **Availability**

Funding is available for the 2016-2017 program year. Grants will be funded by the size of the company and how many employees are being trained and the cost of the training. The maximum grant amount is \$10,000 per employer and is based on availability of funding. Higher funding amounts may be approved by the Evaluation Committee and/or Director.

## **Training Requirements**

The Missouri Job Center is accepting applications for employee work skill enhancement and training activities from the Ozark Region area employers. The training requested should be geared towards providing a new skill or enhancing the skill level of an incumbent worker, thereby improving their chances for promotion and ultimately resulting in increased wages. The training requested should go beyond training the employee has already received or training that the employer normally provides.

In an effort to maximize the financial resources within the community, Missouri Job Center requires in kind matching resources by the employer, such as training wages or leasing costs for classroom space. An eligible incumbent worker is an employee working a minimum of an average of 32 hours per week employed at the respective employer for more than six consecutive months.

Missouri Job Center encourages applicants to collaborate with other employers and public and private entities/businesses in order to maximize services and benefits for employees. Organized consortiums of industry employers are also encouraged to apply. Employers must complete an application packet describing the training to be provided. Also included in the application packet should be an explanation of each training method and a timeline for completion, whether a new job will be created as a result of the training, the type of skills that will be upgraded, and any projected pay increases. Additionally, all training must be consistent with the Missouri Job Center's Targeted Occupations/Targeted Industries list (see Exhibit B).

If a collective bargaining agreement covers the employer, then union concurrence with the training services is required. An incumbent worker project may employ any training allowable under the Workforce Investment Opportunity Act and must comply with general requirements and restrictions. Reporting on participant and employer performance outcomes is also required.

The attached materials describe the information needed to submit an application. For questions regarding the application contact: Tracy Polk at (417) 841-3324 or email: [tpolk@springfieldmo.gov](mailto:tpolk@springfieldmo.gov).
