

**Administrative Ruling #2013-08
Building Development Services
Springfield, Missouri**

Pursuant to General Ordinance 6015, Sub-Article XIII, Chapter 36, Article III, Land Development Code, Section 36-1225 the following ruling is hereby made in order to authorize the approval to install a certain manufactured device which has been approved by Public Works.

Code Reference: 2012 International Plumbing Code, Section 1003.2.1, Design Standard and Sizing.

The Department of Public Works has reviewed the design and capabilities of the following grease interceptor and has approved the use in the City of Springfield.

Model GB250 as manufactured by Schier Products.

Chris Straw, Director
Building Development Services
